I am a highly ambitious and hard-working Software Engineer with a passion for creating engaging, responsive, and accessible web experiences for all users, with particular attention to user experience and design. I am resilient and highly motivated by a desire to produce the best solution to any design requirement. I am highly professional and have exceptional organisational and communication skills. I am equally confident and proficient working independently or as part of a team. I am a creative problem solver and possess strong attention to detail and outstanding critical thinking skills.

## Technical Skills

<i>Languages</i>	<i>Frameworks / Libraries</i>	<i>Tooling / Testing</i>	<i>Processes</i>
JavaScript, TypeScript	Vue	Git	Agile
HTML	Angular	Vite, Webpack	Kanban
CSS / Sass / Less	NodeJS	Vitest, Jest, Jasmine, Karma	Accessibility Testing
ElasticSearch	D3	Cypress	
Gherkin	Pinia	ESLint, Prettier	
	PrimeVue	CLI	

## Experience

### Masabi

Software Engineer

Apr 2021 - Present

- Contributed to the development and maintenance of an agency-facing SaaS web app, enhancing features, performance, and overall user experience.
- Advocated for accessibility within the team, conducting manual accessibility testing to ensure a seamless user experience for diverse audiences.
- Collaborated across multiple teams, working on various projects with different tech stacks and complexity levels.
- Simultaneously worked on multiple features by coordinating with different teams, ensuring consistency, and timely delivery across parallel projects.
- Mentored junior developers through detailed pull request reviews and pair programming sessions, encouraging best practices and continuous learning.

Interim Pod Lead

July 2022

- Led project discussions, organised meetings, and optimised team workflows to improve productivity and collaboration.
- Acted as a bridge between teams, ensuring all stakeholders were aligned on project goals and timelines.
- Maintained team morale and motivation by recognising achievements and fostering an inclusive environment.

### Visual Journalism, BBC News

Software Engineer

Aug 2019 – Apr 2021

- Developed interactive web applications that simplified complex data for global users, ensuring accessibility and cross-browser compatibility.

- Led the development of high-profile election projects, delivering on tight deadlines while maintaining high-quality standards.
- Collaborated with designers, product managers, and journalists to translate UI/UX designs into high-quality, reusable code.
- Acted as a mentor and interviewer for prospective junior developers, focusing on team well-being and productivity during remote work.

### Visual Journalism, BBC News

Junior Software Engineer

Sep 2018 - Aug 2019

- Contributed to internal tools like a Chrome map extension, enhancing functionality and usability for the design team.
- Gained hands-on experience while completing a computer science degree, balancing academic and professional responsibilities.

### Visual Journalism, BBC News

Trainee Software Engineer

Aug 2017 - Aug 2018

- Worked alongside developers, designers, and journalists to create bespoke interactive content for the BBC News website.
- Developed the [Gender Pay Gap](#) project, involving both design and development tasks, and completed a variety of training courses.

## Side Projects

### Albanian Post / Fjala e Lirë

Designer & Web Developer

Sep 2018 - Present

- Redesigned an [Albanian community magazine](#) with a new modern and professional layout. Focusing on simple and attractive designs, so the reader has the best experience while reading the news.
- Structured articles and advertisements on every page while working together with clients to produce advertisements that would be printed in the magazine.
- Designed for specific public holidays celebrated by the Albanian community, such as Christmas and Independence days.
- Worked directly with Wix.com to design and develop [fjalaelire.com](#). Communicating effectively with the client to understand the needs of the users. Providing SEO enhancements for article pages to be widely reached.
- When working with clients, I focus on responsiveness, cross-browser support, and usability, ensuring all users can freely access the functionalities of the website, regardless of their requirements.

## Education

University of Westminster

Sep 2015 - July 2019

Bachelor of Science in Computer Science, 1st Class Honours

Dissertation: ["A Visual Analysis of Student Commute Length, Attendance and Performance at University"](#).
